Portales & Roosevelt County Job Fair

PORTALES, NM— The Roosevelt County Community Development Corporation (RCCDC) along with the P4 Partnership organizations is sponsoring a Job Fair on Thursday, September 29, 2016 at the Memorial Building in Portales from 3pm to 7pm.

This Job Fair is an effort to connect workers with Portales and Roosevelt County businesses and industries that need to fill positions. We are reaching out both from within and beyond the community to encourage and grow our workforce. The job fair is free to anyone seeking a job.

We encourage anyone in the general public interested in obtaining a good job to attend this very important job fair. There may be residents who are seeking to build on their existing skills, and also under-employed who are seeking to utilize their education and skills beyond the scope of their present job. There are veterans who bring years of experience to our workforce, as well as military spouses seeking employment to utilize their skill sets and expertise. There are also retirees seeking second careers and many students seeking placement in careers matching their educational background.

As for employers, there is still time to register for the event. If you are in need of employees, we encourage you to participate in this job fair. There is a \$35 registration fee that will reserve your booth space. Each booth space has a table and two chairs. There will be interview areas available. Your registration fee will allow us to promote this event, attract the best and widest array of job applicants. There will be radio and print advertising targeting both the general public and military related (spouses, dependents, retirees, veterans) job seekers. Register today by calling the RCCDC at 575-356-5354 or 575-760-8149.

-more-

The RCCDC was established in 1998 and was formed to preserve, expand, and promote the diverse regional economy through proactive engagement in business expansion and retention, entrepreneurial development, business recruitment, and community-oriented marketing for the City of Portales, Eastern New Mexico University, Roosevelt County, its citizens, and students.
